

## **BURGEAP, a Ginger Group subsidiary, will present the advantages of engineering for sustainable cities and eco-responsible industry**

**Organized from 29 November to 02 December in Lyon, this 27<sup>th</sup> edition of Pollutec will bring together stakeholders which innovate and design environment-focused equipment, technology and services. BURGEAP, a Group Ginger subsidiary, expert in water engineering and environmental engineering, will present its latest innovations, specifically during the conferences held in the Polluted Sites and Soils Village. The Group will be present on the stand (225 – aisle D – hall 4).**

As part of this theme: Philippe Margarit, Groupe Ginger CEO and Michèle Cyna, BURGEAP Chairman of the Board and CEO, will hold a conference, broadcast live throughout the Exhibition and on Internet on Thursday 1<sup>st</sup> December 2016 from 12:05 pm to 12:50 pm on Geotechnology, pollution, hydrogeology, rainwater purification, reuse of excavated land: technical, financial and regulatory interest of an integrated approach.

In addition to this presentation, BURGEAP will host “Expert Minutes” on its stand, every day at 10 am, to address a variety of technical topics: energy, waste, geothermal energy, restoring water courses. Part of Ginger Group since April 2016, which also comprises Ginger CEBTP, French leader in the field of soil and construction material engineering, BURGEAP is one of France’s leaders of site decontamination and hydrogeology. It is committed to playing a proactive role in creating sustainable cities and in accompanying French and international eco-responsible industrial groups by providing them with its engineers’ know-how and technical expertise.

A company that is well-established on a nationwide scale, totalling some 400 employees, including 350 engineers and with turnover standing at 42 million euros, BURGEAP also exports its knowledge. As such, it is involved in reinforcing the multidisciplinary offer of Groupe Ginger, a fast-growing Group totalling 1,500 members of staff and turnover standing at 150 million euros.

### **About Ginger Group**

Ginger is the French leader of recommendation engineering. Specialized in soils, water, material, works and environmental engineering, the Group has ambition to become the major player for construction, sustainable cities, and industrials.

The Ginger’s skills are built on a perfect technical control on several fields as geotechnics, polluted soils and sites, material health and water.

With a network composed of 70 offices, Ginger includes around 1,700 salaries in Metropolitan France and overseas, and at the international.
